

Brian Dolan

Name: Brian Dolan

Position: Chief Currency Strategist

Company: FOREX.com

Brian Dolan is an 18 year veteran of the currency market, having worked as a senior trader and analyst at some of the world's leading international banks, including Dai-Ichi Kangyo, Credit Suisse and American Express. In addition to overseeing fundamental and technical research at GAIN, Brian publishes a daily technical analysis report and weekly macro research report for the exclusive use of GAIN Capital clients. Frequently sought after by the financial press for his insights into currency movements, Brian is a frequent guest on CNBC and Bloomberg TV. Brian has also published numerous articles on short-term trading strategies and risk management in journals such as Futures, Technical Analysis of Stocks & Commodities, and SFO. In the fall of 2007, Brian co-authored Currency Trading for Dummies, a sophisticated, educational resource for traders new to the Forex markets. Brian is a graduate of Dartmouth College.
